

## Press Release

### **Moroccan Refinery Company SAMIR to Deliver Fusion Enterprise for IBM FileNet P8 Case Study at the IBM IOD EMEA 2010 Conference**

#### **Sword CTSpace helps major refinery company increase its productivity**

**Brentford, UK – May 12, 2010** – Sword CTSpace's Fusion**Enterprise** for IBM FileNet P8 will be the subject of a customer testimonial by the Moroccan refinery company SAMIR at a session of the IBM IOD EMEA 2010 Conference in the Rome Marriot Park Hotel Wednesday May 19 11:45am-12:35pm (Room 8). SAMIR, a public company with a staff of 1100 and \$3.2 billion turnover in 2009, currently operates at a capacity of 6.5 MT/year (under expansion to 8.2 MT/year).

Sword's Fusion**Enterprise** for IBM FileNet P8 constructs engineering and project management features around the FileNet framework essential to the timely and successful completion and ongoing operation of modern engineering projects. The abstract for the session indicates that top SAMIR representatives, including Technical Services Director Hmida M'Hamdi, will discuss how Fusion**Enterprise** for IBM FileNet P8 will "help streamline and automate the life of engineering drawings and related procedure documents from creation to archiving, resulting in significant reduction in project duration, costs and facilitate the maintenance."

Sword CTSpace's expert technical team adapted Fusion**Enterprise** for IBM FileNet P8 to meet the requirements of SAMIR's project, a \$1.310 billion upgrade of their refinery in Mohammedia. The project, which will involve more than a half dozen project participant contractors in PMC, construction, engineering, and technical assistance, demonstrates Sword CTSpace's ability to provide for even the most complex projects, as well as its popularity among process industry leaders and its ability to work effectively around the globe.

#### **About Sword CTSpace**

Sword CTSpace provides document control, cost management and business process automation solutions to companies with capital assets to design, engineer, construct and maintain in any location in the world. More than 145,000 professionals on 13,000 projects in 56 countries benefit through improved collaboration, enhanced ability to manage schedules and risks, and improved regulatory compliance. Sword CTSpace is unique in offering both online 'software as a service' (SaaS) solutions and on premises enterprise solutions, the latter of which leverage an organization's existing investment in leading ECM platforms. Sword CTSpace is part of the Sword Group of companies. For more information, please visit [www.sword-ctspace.com](http://www.sword-ctspace.com)
